

JOURNAL OF IMMUNE BASED THERAPIES AND VACCINES

www.jibtherapies.com

Editor-in-Chief: Robert W. Malone (United States)

***Journal of Immune Based Therapies and Vaccines* is an open access, peer-reviewed, online journal dedicated to all aspects of therapeutic applications of immunology.**

Journal of Immune Based Therapies and Vaccines aims to advance the understanding of specific immunological mechanisms involved in protection for efficacious vaccines and the immune correlates of the therapeutic action of Immune Based Therapies (IBTs). The areas of vaccines and IBTs encompass many different disciplines as immune based therapies and vaccines are now being developed for infectious diseases, transplantation, cancer, allergic diseases, and autoimmune diseases.

The journal considers the following article types: original research, short reports, reviews, commentaries, letters to the Editor, methodology articles and meeting reports. For further details, see www.jibtherapies.com/info/about/.

Reasons for publishing in *Journal of Immune Based Therapies and Vaccines*:

- All articles published in the journal are open access; universally accessible online without charge.
- High visibility for your work - anyone with Internet access can read your article, free of charge.
- Included in PubMed - making your work easy to find, read and cite.
- Articles are published immediately upon acceptance.
- Authors retain the copyright of their articles.
- Electronic submission and peer-review makes the whole process of publishing your article simple and efficient.
- Publishing online means unlimited space for figures, extensive datasets and video footage.
- Professional formatting meets the standards expected by researchers.
